

01 Gaggenau's RW424 climate-controlled wine cabinet stores up to 64 bottles. Each unit contains two independently controlled climate zones and is available as a right- or left-hand opening cabinet. www.gaggenau.co.uk

02 The latest innovation from Austria's **Steinger Designers** is the Concrete Kitchen. It wraps 8mm-thick concrete around a steel core and includes an integrated table in solid wood. www.steinger-designers.at

03 For a fresh take on stainless steel, check out **Aster Cucine's** hammered steel finish in its Contempora Next range. The material can be used on door fronts, feature walls or splashbacks. www.astercucine.it

04 Sharp's Steamwave countertop appliance promises true steam-oven functionality with a built-in microwave and grill. It boasts 15 pre-programmed menus plus steam defrost and descale programmes. www.sharp.co.uk

05 Karndean has developed a vinyl floor that convincingly mimics real wood. Thanks to its textured grain surface and plank-like installation, Art Select Woods offers high performance and durability. www.karndean.co.uk

06 Add a pop of hot colour to the kitchen sink with this striking red tap from **Zucchetti**. Designed by Ludovica and Roberto Palomba, it also comes in baby blue, black and chrome. www.zucchettidesign.it
